SPECIALIZED SERVICES

Sales

Our investment professionals provide property profiling, marketing, sales and consultant coordination for residential and commercial properties.

Leasing

The leasing agents produce comprehensive marketing plans, generate quality tenant activity and manage the documentation process through industry standard forms.

Property Management

Our accounting, maintenance and construction related services are available for commercial and residential properties through a staff of professional service providers.

Investment Analysis

The in depth asset management services and investment analysis provided by our executive team allows our clients to manage risk, preserve capital, evaluate investment options and structure partnerships.

Construction Management

These services include the planning and implementation of tenant improvements, capital upgrades and on-going maintenance of the properties with the assistance of our strategic partners.
